— 01 — INTRODUCTION

A NEW SUMMER FORMULA FOR THE SOUTHERN HEMISPHERE.

Three rounds. Three circuit configurations. One world-class venue. The Australian Formula Series is purpose-built to bring the international single-seater ladder to Australian summer — and to put Tatuus F4 mileage in the hands of drivers preparing for 2027 European, Australian and Asian F4 campaigns.

Promoted by AGI Sport and run to current FIA Formula 4 technical regulations, AFS is a condensed December programme: an official test day before each round, then a four race Round. Ten race-track days inside eighteen calendar days.

The series anchors at The Bend Motorsport Park in South Australia — the Southern Hemisphere's longest FIA-graded circuit, with multiple distinct configurations on a single site. We use three of them. Teams unload once. Drivers learn 3 different circuits.

Entry is open to International and Australian teams alike. Car rental, container logistics, technical support and scrutineering are all available as a turnkey package, so an overseas team can fly in and race.

Looking forward to welcoming you to Australia.
